PROFESSIONAL PROFILE

Project Manager (PM) with a technical background and expertise in electrical and photovoltaic systems design, applied to complex, high-tech projects such as Data Center infrastructures. Since 2025 at Solarys Innovative Solutions, I support the management of EPC (Engineering, Procurement and Construction) projects in the renewable energy sector, combining technical rigor with strategic planning and cross-functional team coordination. Passionate about technology and sustainable innovation, with a strong aptitude for problem-solving and fostering relationships with clients, colleagues, and suppliers.

PROFESSIONAL EXPERIENCE

Solarys Innovative Solutions - Project Manager

April 2025 - Present | Permanent

- Coordination between technical teams, suppliers, and clients in EPC energy projects.
- Activity planning and project progress monitoring (Milestones tracking).
- Risk analysis, timeline optimization, and resource management.

Aruba Studio - Aruba S.p.A. - Technical Designer / Project Owner

October 2023 - April 2025 | Permanent

- Project Owner managing LV/MV electrical networks and photovoltaic systems within Data Centers.
- Supplier coordination and technical supervision of on-site construction works.
- Planning design activities, defining deliverables, and supporting internal infrastructure R&D.
- Drafting technical documentation (as-built) and providing support to construction management.

Aruba Studio - Aruba S.p.A. - Internship

March 2023 - August 2023

- Operational support for the design of electrical networks and home automation systems.
- Energy efficiency activities and technical site inspections management.

EDUCATION AND TRAINING

ITS Energia e Ambiente - Colle Val D'Elsa (SI)

2021 - 2023 | Higher Technician in Energy Systems Management (EQF level V)

- 2D/3D CAD design, industrial automation (PLC, CNC, IoT, KNX). Energy efficiency and retrofitting.
- Certifications: Building Energy Certification (DPR 75/2013); Technical Requirement Standard DM 37/2008.

SKILLS

- Management: Project Manager (PM), EPC Projects, Risk Analysis, Planning.
- Engineering: LV/MV Grids, Photovoltaics, Data Center Infra, Energy Efficiency.
- Software: AutoCAD, Revit, Fusion 360, Progetto Integra, Dialux, ETS5/6, MS Project, Jira/Confluence, Office 365.
- Languages: Italian (Native), English (B2).

EXTRA-CURRICULAR EXPERIENCE

Scout AGESCI - Arezzo 7 Group (2008-2022)

Coordination of educational activities and organization of complex events. Development of fundamental soft skills: situational leadership, logistical teamwork, and effective communication.
